WAYS YOU CAN SUPPORT LOW INCOME UTAHNS WHO RELY ON MEDICAID FOR BASIC HEALTHCARE

1. Ask Governor Cox's Office Planning and Budget to fully fund Medicaid in their budget proposal. State officials underestimated how inflation and other factors would impact Medicaid costs in Utah and so our state Medicaid program has a deficit of more $100 million that state leaders need to fix. The Governor's budget proposal is released in December and will be the first attempt to solve this problem. Please take a minute to call or email his planning and budget staff and ask them to prioritize Medicaid in the budget they are working on, (801) 538-1027, gopb@utah.gov

2. Ask your personal state legislators to support efforts to keep Medicaid whole in the state budget. If you do not know who your legislators are you can find them on this page of the state website: https://le.utah.gov/GIS/findDistrict.jsp

3. Help spread the word about this issue by posting a picture of yourself on social media holding a sign that says "Medicaid saves lives in Utah" with the hashtag #MedicaidSavesUtah

4. Attend the RALLY FOR MEDICAID on January 14, 2027, at noon, on the south steps of the Utah Capitol Building.
